

# IZ HDX

## PROFILE

The HDX zero clients from IGEL are solutions tailored to accessing Citrix XenDesktop and XenApp. They offer high performance at a low price. Citrix Appliance Mode enables the devices to boot quickly and directly to the virtual machine. Three available hardware platforms ensure that the specific performance and connectivity requirements of different workstations can be readily met.

## FEATURES AND BENEFITS

- ▶ **Specialized HDX zero clients:** high-performance, reliable desktops for accessing XenDesktop and XenApp
- ▶ **Low-cost solution:** small non-recurring hardware investment, no hidden or ongoing costs, no subsequent costs
- ▶ **Easily updated and upgradable clients:** they are future-proof because new functions can be used as and when needed, and because they permit future migration to other VDI solutions using the existing IGEL zero client hardware
- ▶ **Automated, central remote administration:** quick and easy rollout, sharp reduction in management overhead, no local management required
- ▶ **Risk-free client testing:** request a test device at [www.igel.com/eval](http://www.igel.com/eval)

## USE SCENARIOS

- ▶ **IZ1 HDX:** Workstations for task and office workers with relatively high multimedia requirements (e.g. training videos in full HD), dual view with optional Y-cable
- ▶ **IZ2 HDX:** Workstations for task and office workers with moderate multimedia requirements, a large range of supported solutions (e.g. digital dictation or smart card authentication), dual view with optional Y-cable
- ▶ **IZ3 HDX:** Workstations for task, office and knowledge workers with relatively high multimedia requirements, a large range of supported solutions (e.g. digital dictation or smart card authentication), good peripheral connectivity options (USB 3.0, 2 x DVI, and optionally, a serial port, WLAN or concealed USB port in the base)

All IGEL clients operated by end-users come with a standard two-year warranty (starting from the date of delivery). When you take advantage of our available free online registration, the hardware warranty period will automatically be extended to three years based on the original end-customer warranty agreement for the IZ1, IZ2 and IZ3 series. By completing this one-time registration, you will also obtain extended warranty periods for all of the following devices. IGEL is a registered trademark of IGEL Technology GmbH. All hardware and software names are registered trademarks of the respective manufacturers. Errors and omissions excepted.
